Pranjal Shrivastava

Portfolio

pranjal78666

Summary

Full Stack Developer with 1+ year of experience building SaaS and E-commerce applications. Skilled in React.js, Vue.js, Next.js, Node.js, PHP, MySQL, and REST APIs. Experienced in feature development, API integration, performance optimization, and production support. Proficient with Cursor AI and Claude AI to improve development productivity and debugging. Serving notice period; available for early release.

Education

Shri Govindram Seksaria Institute of Technology and Science (SGSITS), Indore

2021 – 2025

B.Tech in Computer Science Engineering

Experience

Galaxy Weblinks Inc., Indore

Aug 2025 – Present

Associate Software Engineer

Hybrid

- Contributed to **ThinkCEO** (Next.js, TypeScript) and **ImprintCity** (Vue.js, Node.js, PHP, MySQL), developing frontend and backend features including invoice management, media management, user workflows, and role-based modules.
- Built REST APIs, implemented business logic, and worked with MySQL-backed applications to support scalable application workflows.
- Integrated PCNA, SanMar, and HPG vendor APIs using PHP automation scripts, enabling product import, variant generation, color mapping, size grouping, and catalog synchronization.
- Optimized application performance, resolved production issues, debugged large-scale codebases, and maintained stable production releases.
- Collaborated with QA, Design, Product, and Backend teams using Agile practices, leveraging Git and Linux for version control, testing, deployment, and code reviews.

Appstle Inc., Menlo Park, California, United States

Apr 2025 – Aug 2025

Merchant Success Engineer (Contract)

Remote

- Developed and customized Shopify Subscription and Membership storefront widgets using HTML, CSS, and Liquid, delivering branding-specific UI/UX enhancements.
- Collaborated with merchants, product, engineering, and leadership teams to implement storefront improvements, Shopify app integrations, feature enhancements, and resolve production issues.
- Supported subscriber migrations, merchant onboarding, technical documentation, and operational workflows across SaaS products.

Dhiyotech Private Limited, Bhopal

May 2024 – Jul 2024

Software Engineer Intern

On-Site

- Developed responsive web applications using HTML, CSS, JavaScript, PHP, and MySQL, implementing database operations and user authentication.
- Customized website features to improve functionality, user experience, and cross-device performance based on project requirements.
- Built the Talent Spiral EduTech application using Flutter and Dart from Figma designs, implementing bottom navigation, video playback, and multimedia course features.

Technical Skills

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend: Node.js, PHP, REST APIs

Databases: MySQL, MongoDB

Developer Tools: VS Code, Git, GitHub, Postman, Cursor AI, Claude AI, Linux

Development Practices: Agile, Debugging, Performance Optimization, API Integration, Production Support

Projects

ThinkCEO – Research & Consulting Platform | Next.js (TypeScript), React.js, MySQL | Live

Aug 2025 – Nov 2025

- Developed the Transactions Module covering Member, Analyst, Media, and Call Invoice Management workflows.
- Built invoice and media management modules with pagination, search, filtering, role-based access, REST APIs, Prisma, React Hook Form, Yup, and Stripe Payment Intents.
- Refactored large components into reusable modules, improving maintainability and code organization.

ImprintCity - Custom Merchandise & Printing Platform | *Vue.js, Node.js, PHP, MySQL* | Live **Nov 2025 – Present**

- Developed and maintained a custom merchandise e-commerce platform with Vue.js, Node.js, PHP, and MySQL.
- Integrated PCNA, SanMar, and HPG vendor APIs using PHP automation scripts, implementing product import, variant generation, color mapping, size grouping, and catalog synchronization.
- Built dynamic Vue.js product pages and customization workflows while resolving production issues related to product publishing, variants, swatches, and data consistency.
- Improved application quality through Lighthouse performance audits, optimization strategies, and database validation scripts for duplicate detection and data cleanup.

Certifications

- Prompt Engineering with ChatGPT – Simplilearn
- Cloud Computing – NPTEL, IIT Kharagpur
- Software Testing – NPTEL, IIIT Bangalore
